

Gas Control Equipment

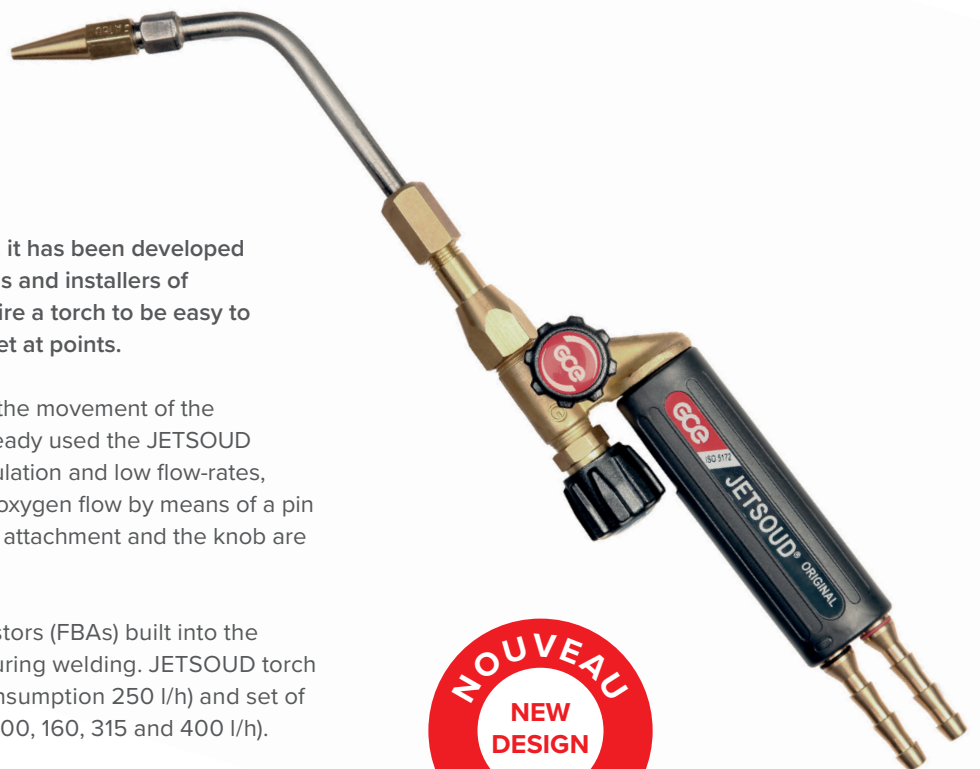

## WELDING TORCH **JETSOUND**

This torch is light and easy to handle; it has been developed specifically for refrigerator technicians and installers of airconditioning equipment, who require a torch to be easy to handle for reaching narrow hard to get at points.

JETSOUND torch allows a reduction in the movement of the operator's wrist. People who have already used the JETSOUND torch appreciate its perfect flame regulation and low flow-rates, thanks to the possibility of regulating oxygen flow by means of a pin (microregulation). This means that the attachment and the knob are on the same axis.

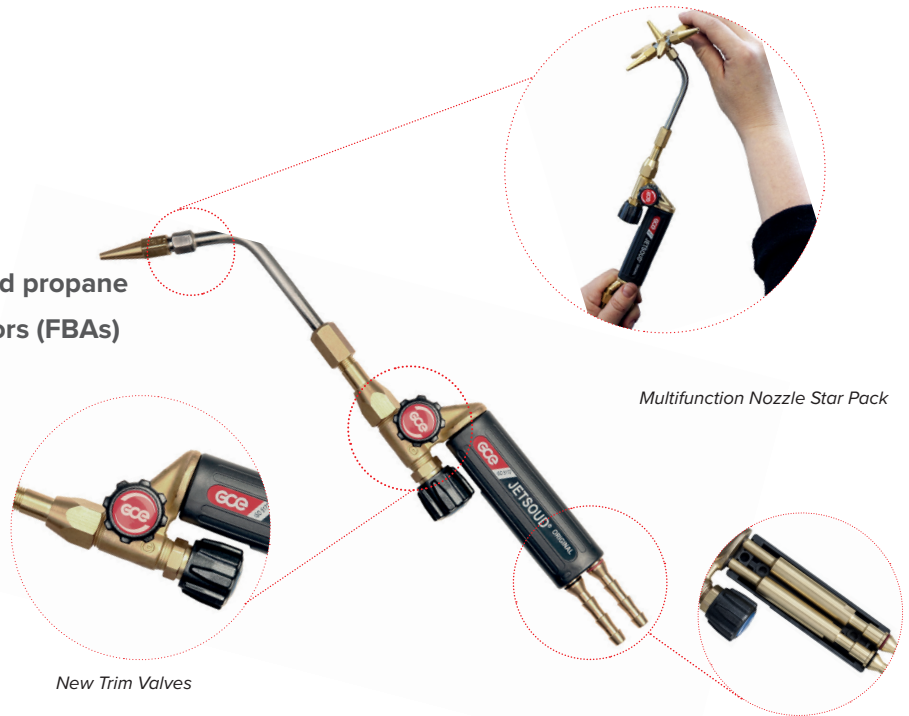

The JETSOUND SI has Flashback arrestors (FBAs) built into the shank to ensure the highest safety during welding. JETSOUND torch is delivered with mounted nozzle (consumption 250 l/h) and set of 6 nozzles with consumption (40, 63, 100, 160, 315 and 400 l/h).

# JETSOUND

## TECHNICAL INFORMATION

- Low weight 320 g
- Length 360 mm
- Compatible for acetylene and propane
- Integrated Flashback arrestors (FBAs)
- EN ISO 5172

Multifunction Nozzle Star Pack

New Trim Valves

Flashback Arrestors Integrated

## TECHNICAL DATA

Welding range (mm)	Nozzles consumption (l/h)	Pressure (bar)		
		Oxygen	Acetylene	Propane
0,4 - 0,5	40	1 - 1,5	0,2 - 0,5	0,1 - 0,4
0,6	63			
1	100			
1,5	160			
2,5	250			
3	315			
4	400			
5	500			

## WELDING TORCHES
